

## ABSTRACTS

- Chawla M, Jia N, Ali AK, Araz M, Beshya S, Caballero E, Curtis BH, Fernandes V, Linetzky B, Adame LM, Peng X, Polonsky WH, Ray K, Suzuki S, Tsoukas M, Zhao Z, Davies M (2017). Global insulin treatment patterns and attainment of individualized goals: insights from the MOSA1c Study. Poster 1673-P, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Ray K, Fan L, Ali AK, Araz M, Bain SC, Caballero E, Chawla M, Curtis BH, Davies M, Fernandes V, Funnell M, Linetzky B, Matsuba I, Montenegro RM, Polonsky WH, Zhao Z, Adame LM (2017). Patient, physician, and health-care system factors associated with HbA1c improvement after initial insulin therapy in the MOSA1c Study. Poster 1551-OR, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Cabaleero E, Fan L, Ali AK, Beshya S, Chawla M, Curtis BH, Davies M, Linetzky, Matsuba I, Montenegro RM, Peng X, Polonsky WH, Ray K, Tsoukas M, Zhao Z, Adame LM (2017). Factors associated with individualized HbA1c target selection in the MOSA1c type 2 diabetes study. Poster 1547-OR, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Ahlén E, Polonsky WH, Heise T, Bolinder J, Hirsch IB, Wedel H, Hellman J, Olafsdóttir A, Frid A, Lind M (2017). Variables associated with HbA1c improvement during CGM therapy in persons with T1D treated with multiple daily insulin injections (MDI). Poster 935-P, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Olafsdottir AF, Hirsch IB, Bolinder J, Heise T, Polonsky WH, Dahlqvist S, Frid A, Ahlen E, Hellman J, Wedel H, Lind M (2017). Impact of continuous glucose monitoring (CGM) on hypoglycemia in T1D adults on multiple daily Insulin injections (MDI). Poster 932-P, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Polonsky WH, Hessler, D, Ruedy K, Beck RW (2017). Satisfaction with continuous glucose monitoring: how do the experiences of insulin-using adults with type 1 diabetes vs. type 2 diabetes differ? Poster 924-P, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Polonsky WH, Lanar S, Knoble N, Weatherall J, Håkan-bloch J, Constam E, Philis-Tsimikas A, Marrel A (2017). Qualitative assessment of the impact of insulin degludec on quality of life in patients with type 2 diabetes. Poster 823-P, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.
- Funnell M, Jia N, Bain SC, Caballero E, Curtis BH, Davies M, Adame LM, Peng X, Polonsky WH, Suzuki S, Zhao Z, Linetzky B (2017). What drives self-care behaviors in people with type 2 diabetes treated with insulin? Insights from the MOSA1c study. Poster 817-P,

presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.

Davies M, Fan L, Ali AK, Araz M, Bain SC, Beshya, S, Caballero E, Curtis BH, Fernandes V, Linetzky B, Montenegro RM, Adame LM, Matsuba I, Peng X, Polonsky WH, Tsoukas M, Zhao Z, Ray K (2017). Global patterns of treatment changes among patients with type 2 diabetes (T2DM) treated with insulin: Insights from the MOSAIC study observational study. Poster 372-OR, presented at the Scientific Sessions of the American Diabetes Association, San Diego, CA.

Fisher L, Polonsky WH, Stuckey H, Hessler D, Snoek FJ, Trang T, Hermanns N, Mundet X, Silva ME, Sturt J, Okazaki K, Perez-Nieves M (2017) Identifying solutions to psychological insulin resistance: Key differences observed across seven countries. Poster OP-0078, presented at the International Diabetes Federation Congress, Abu Dhabi, UAE.

Polonsky WH, Fisher L, Stuckey H, Hessler D, Snoek FJ, Hadjiyianni I, Dachuang C, Pollom D, Kalirai S, Ivanova J, Desai U, Perez-Nieves M (2017). Identifying solutions to psychological insulin resistance: An international study. Poster P-1194, presented at the International Diabetes Federation Congress, Abu Dhabi, UAE.
